

Test # _____

Engineering Design Post-Test Reflection

Group Member Names _____

Respond to the questions in COMPLETE SENTENCES

What parts of your design were successful or worked well?

What evidence from your data table supports this?

What parts of your design were unsuccessful or need to be improved?

What evidence from your data table supports this?

HOW will you change or modify your design in order to improve these unsuccessful or weaker areas?

WHY do you think these specific changes will make your prototype more successful?
